

ACARA V9.0 · AC9M2N05 — Represent equal sharing and grouping problems using materials

Learning Intention

I can share a group of objects equally between people.

Warm-Up

Share the biscuits evenly.

6 biscuits shared between 2 friends = _____ each

1. Party Bags

12 stickers shared equally between 3 party bags.

How many stickers in each bag?

.....

2. Reading Groups

20 students split into 4 equal groups.

How many students in each group?

.....

3. Fruit Basket

15 apples shared equally among 5 baskets.

How many apples in each basket?

.....

4. Pencil Pots

18 pencils shared equally between 2 pots.

How many pencils in each pot?

.....

High Five Self-Check

Colour a star for each problem you solved on your own.

Extension Activity

Use 20 small toys at home and find three different ways to share them equally.

Parent / Teacher Tip

Sharing real objects into equal piles — one at a time, round and round — is the strongest foundation for later division. Avoid rushing to the symbol $\div$ too soon.

Answers & Marking Guide

Warm-Up

3 biscuits each ($6 \div 2 = 3$)

Main Problems

1. **Party Bags:** 4 stickers each ($12 \div 3 = 4$)

2. **Reading Groups:** 5 students each ($20 \div 4 = 5$)

3. **Fruit Basket:** 3 apples each ($15 \div 5 = 3$)

4. **Pencil Pots:** 9 pencils each ($18 \div 2 = 9$)

Marking Tip

Look for a fair, equal split in the child's drawing or working, even if the final number is reached differently.
