

Addition within 100

Year 2 Mathematics | ACARA Final APA Version

Name: _____

Date: _____

ACARA v9.0: AC9M2N04 - add and subtract one- and two-digit numbers, representing problems using number sentences.
Supporting: AC9M2N02 - use place value to partition and rename numbers.

Learning Intention

I can add two-digit numbers using tens, ones and helpful strategies.

Strategy Box

Break the second number into tens and ones. Add the tens first, then add the ones.

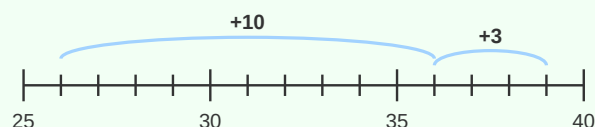

$$\begin{array}{r} 34 + 12 \\ 34 + 10 = 44 \\ 44 + 2 = 46 \end{array}$$

Worked Example

$$26 + 13 = ?$$

$$\text{Step 1: } 26 + 10 = 36$$

$$\text{Step 2: } 36 + 3 = 39$$

A. Warm Up

Start strong! Add the tens and ones.

1. $20 + 5 = \underline{\quad}$

2. $30 + 8 = \underline{\quad}$

3. $42 + 10 = \underline{\quad}$

4. $56 + 3 = \underline{\quad}$

Year 2 Mathematics | Build, Think and Explain

Name: _____

Date: _____

ACARA v9.0: AC9M2N04 - add and subtract one- and two-digit numbers, representing problems using number sentences.
Supporting: AC9M2N02 - use place value to partition and rename numbers.

B. Build Your Skills

Great thinking! Now try these on your own. Leave space to show your strategy.

1. $24 + 11 =$ _____

2. $35 + 22 =$ _____

3. $46 + 13 =$ _____

4. $52 + 27 =$ _____

5. $68 + 21 =$ _____

C. Word Problem

Ethan collected 28 shells at the beach. Ava collected 16 shells. How many shells did they collect altogether? Show your strategy.

D. Maths Challenge

Think like a mathematician. Find two different addition sums that both equal 75. Explain how you know.

I Can Checklist

- ☐ I can add tens and ones.
- ☐ I can show a strategy.
- ☐ I can solve a word problem.

Addition within 100 - Answer Key

Year 2 Mathematics | Teacher Notes

Name: _____

Date: _____

ACARA v9.0: AC9M2N04 - add and subtract one- and two-digit numbers, representing problems using number sentences.
Supporting: AC9M2N02 - use place value to partition and rename numbers.

Answer Key

- A. Warm Up: 1) 25. 2) 38. 3) 52. 4) 59.
B. Build Your Skills: 1) 35. 2) 57. 3) 59. 4) 79. 5) 89.
C. Word Problem: $28 + 16 = 44$ shells. Possible strategy: $28 + 10 = 38$, then $38 + 6 = 44$.
D. Maths Challenge: Answers will vary. Examples: $40 + 35 = 75$ and $60 + 15 = 75$.

Parent/Teacher Tip

Encourage children to explain their strategy aloud. Useful prompts: What did you add first? How did tens and ones help?

Extension Idea

Make three addition sums that have answers between 70 and 90. Swap with a partner and check each answer.
