

Toby Turtle — Subitising — How Many?

Name: _____

Date: _____

Australian Curriculum v9.0 Aligned | AC9MFN02

LEARNING INTENTION

I am learning to recognise how many objects are in a group without counting one by one.

WARM UP — QUICK LOOK!

Look at each group for 3 seconds only. Write how many you saw. No counting allowed!

I see: _____

I see: _____

I see: _____

A — DRAW THE DOTS

Draw the correct number of dots in each big box:

3

draw here

5

draw here

2

draw here

B — CIRCLE THE RIGHT NUMBER

Look at the dots. Circle the correct number:

3

4

5

C — HANDS CHALLENGE

Hold up fingers and write how many:

One hand: _____ fingers

Two hands: _____ fingers

Three fingers up: _____

D — MAKE YOUR OWN!

Draw a group of 4 in the big box. Ask a friend to subitise it!

FUN REAL-LIFE ACTIVITY

Subitising Snap! At dinner, put 1 to 5 peas or grapes on a spoon. Show for 2 seconds then cover. How many did they see?

STUDENT REFLECTION

[] I can see groups without counting

[] I can subitise up to 5

[] I can draw a group to match a number

TEACHER FEEDBACK

TIPS

Parent: Show a few grapes quickly at mealtimes and ask how many without counting. Make it a fun daily game!

Teacher: Use dot cards and ask students how they saw the group. Build vocabulary: 'I saw 2 and 1 more — that is 3!'
