

Combining Materials for a Purpose

Australian Curriculum v9 | AC9S2U03

LEARN IT - MODEL AND NOTICE

Materials can be combined by mixing, joining or layering to make something with useful properties. The purpose guides the choice.

Remember: Describe materials, action, result and purpose.

A. GUIDED PRACTICE

1. Why mix sand and water for a sandcastle?

2. Name a joined material object.

3. Choose waterproof material for a cover.

B. INDEPENDENT PRACTICE

1. Match mixture to purpose.

2. Describe one combined material.

3. Predict before mixing.

4. Identify a property needed.

5. Explain a material choice.

C. CHECKPOINT CHALLENGE

Design a useful object made from two combined materials.

Combining Materials for a Purpose

Australian Curriculum v9 | AC9S2U03

D. APPLY IT

Plan a paper bridge strengthened with one additional safe material. Explain the combination and intended property.

My answer / plan:

My evidence / explanation:

E. EXPLAIN YOUR THINKING

1. What property improved?

2. How would you test the purpose?

MY LEARNING REVIEW

☐ I can do it.

☐ I need a little help.

☐ I need more practice.

I understood:

I found this difficult:

PARENT / CARER TIP

During craft or cooking preparation, discuss why particular materials are combined.

Combining Materials for a Purpose

Australian Curriculum v9 | AC9S2U03

COMPLETE ANSWER GUIDE

Guided	Wet sand holds shape; examples vary; plastic/waxed material.
Practice	Purpose-linked answers required.
Challenge	Design names materials, method and purpose.
Application	Combination should improve strength and include a simple test.

TEACHER NOTES - WHAT TO NOTICE

Success evidence: Connects material combinations and properties to purposes.

Common difficulty: Mixing randomly without explaining intended function.

Next step: Compare two combinations using the same test.

QUICK CONFERENCE RECORD

☐ Secure ☐ Developing ☐ Re-teach
