

Communicate Science Findings

Australian Curriculum v9 | AC9S2106

LEARN IT - MODEL AND NOTICE

Scientists communicate questions, methods, observations and findings using everyday and scientific vocabulary, labelled diagrams, tables or short texts.

Remember: A conclusion answers the question using evidence.

A. GUIDED PRACTICE

1. Which section tells what happened?

2. What belongs on a diagram?

3. Finish: The evidence shows...

B. INDEPENDENT PRACTICE

1. Write a clear title.

2. State a method in order.

3. Label a diagram.

4. Report one result with a unit.

5. Write a conclusion.

C. CHECKPOINT CHALLENGE

Create a mini science report from question to conclusion.

Communicate Science Findings

Australian Curriculum v9 | AC9S2106

D. APPLY IT

Communicate the sound-test results: gentle-soft, medium-medium, strong-loud. Include a table and evidence-based finding.

My answer / plan:

My evidence / explanation:

E. EXPLAIN YOUR THINKING

1. Does the finding answer the question?

2. Which science word improved precision?

MY LEARNING REVIEW

☐ I can do it.

☐ I need a little help.

☐ I need more practice.

I understood:

I found this difficult:

PARENT / CARER TIP

Ask the child to point to the result that proves each conclusion sentence.

Communicate Science Findings

Australian Curriculum v9 | AC9S2I06

COMPLETE ANSWER GUIDE

Guided	Results/observations; labels; evidence-based ending.
Practice	All report features accurate and connected.
Challenge	Question, method, results and conclusion included.
Application	Table correct; stronger action produced louder sound in this test.

TEACHER NOTES - WHAT TO NOTICE

Success evidence: Communicates a coherent investigation using evidence and suitable vocabulary.

Common difficulty: Writing only what was done, without reporting what evidence means.

Next step: Present findings orally and answer a question.

QUICK CONFERENCE RECORD

☐ Secure ☐ Developing ☐ Re-teach
