

All About Kangaroos

Informational Reading Comprehension

Aussie Primary Academy | Year 1 Reading

ACARA: AC9E1LY05

Name: _____

Date: _____

Learning Intention: I can read a text and answer questions about characters, events, facts and meaning.

Instructions: Read carefully. Use the text to help you answer each question.

Read the Text

Kangaroos are Australian animals. They have strong back legs, long feet and a thick tail. A kangaroo uses its legs to hop and its tail to balance.

A baby kangaroo is called a joey. A joey is very tiny when it is born. It grows safely inside its mother's pouch.

Kangaroos eat grass and leaves. They are mostly active in the cool morning and evening. When the day is very hot, kangaroos often rest in the shade.

Kangaroos live in many parts of Australia. They are special animals, so we should watch them carefully and give them space.

Vocabulary Box

balance - stay steady without falling

pouch - a special pocket where a joey grows

shade - a cool place away from direct sun
