LEARNING INTENTION

I am learning to read a decodable passage using digraphs, vowel teams and compound words.

READING STRATEGY

Look for vowel teams (ai, ea, oa, oo) and digraphs (sh, ch, th, wh). Chunk longer words into parts before blending.

READ THE PASSAGE — READ IT 3 TIMES!

A thirsty crow found a tall **pitcher** with a little water at the bottom.

The crow's **beak** was too short to reach it.

She **thought** carefully about what to do.

One by one, she **dropped** pebbles into the pitcher.

Slowly, the water **rose** to the top.

The crow **drank** deeply and flew away satisfied.

She had **solved** the problem using her clever mind.

Where there is a will, there is a way.

VOCABULARY HELPER

pitcher = a tall container used to hold liquid

beak = the hard pointed part of a bird's mouth

pebbles = small smooth stones

rose = moved upward

satisfied = feeling that a need has been met

WARM UP — BEFORE YOU READ

2. What did the crow drop into the pitcher?

3. What happened to the water level?

4. What is the moral at the end of this story?

B — THINK AND INFER!

1. What does 'Where there is a will, there is a way' mean? Circle the best answer:

If you really want something, you will find a way to get it

Water always rises

Crows are the smartest birds

2. How does this story show that the crow is clever?

C — WORD WORK!
