

Name: _____

Date: _____

Australian Curriculum v9.0 Aligned | AC9E2LY04 | Year 2 | Digraphs, Vowel Teams & Compound Words

LEARNING INTENTION
I am learning to read a decodable passage using digraphs, vowel teams and compound words.

READING STRATEGY
Look for vowel teams (ai, ea, oa, oo) and digraphs (sh, ch, th, wh). Chunk longer words into parts before blending.

READ THE PASSAGE — READ IT 3 TIMES!

Aiden wanted to win the school science fair.

He decided to grow plants in different types of soil.

He planted three seeds — one in sand, one in clay, one in compost.

Each day, he measured the shoots and wrote in his notebook.

The compost plant grew the tallest.

Aiden made a colourful poster to show his findings.

On the day, the judges were impressed with his method.

Aiden won first place and felt very proud.

VOCABULARY HELPER

science fair = a competition where students show science experiments

compost = rotted plant material used to enrich soil

shoots = new plant growth

impressed = felt admiration for something

method = the way you do something step by step

WARM UP — BEFORE YOU READ

If you could do any science experiment, what would you investigate? Write one sentence:

A — FIND IT IN THE TEXT!

1. What did Aiden decide to investigate?

2. What three types of soil did he use?

3. Which plant grew the tallest?

4. What did Aiden make to show his findings?

B — THINK AND INFER!

1. Why do you think Aiden wrote in a notebook every day?

2. What does it mean that the judges were 'impressed with his method'?

C — WORD WORK!

Find 3 words ending in '-ed' from the passage:

Find a comparative or superlative word in the passage (bigger, tallest):

Name: _____

Date: _____

Answer Guide (For Parent / Teacher Use)

Warm Up: Accept any science experiment idea.

A1. Growing plants in different types of soil. **A2.** Sand, clay, compost. **A3.** The compost plant. **A4.** A colourful poster.

B1. Accept: To record data/keep track of growth/prove his results. **B2.** Accept: They liked the way he planned and carried out the investigation.

C Past tense: decided, planted, measured, made, impressed — any 3. **Superlative:** tallest.

High Five! You are a Super Reader! ✓
Colour a star each time you read the passage aloud:

EXTENSION ACTIVITY

Design your own science experiment. Write the question you want to answer, what you will need, and the steps you will follow.

PARENT TIP

Try a simple science experiment at home — grow seeds in different soils or test which paper towel absorbs the most water. Record results together!

TEACHER TIP

Connect to Science. Introduce scientific method: question, prediction, method, results, conclusion. Students plan their own mini investigation.

STUDENT REFLECTION

[] I can read the passage fluently

[] I can explain what a scientific method is

[] I can identify superlative words in the text
