

Name: _____

Date: _____

LEARNING TARGET

I can apply Grade 4 skills for inference and explain my thinking.

KEY STRATEGY + WORKED EXAMPLE

Make a logical claim and support it with more than one precise text detail.

Read: When the power failed, Mateo found the flashlight without being asked. He checked on his younger brother, then placed the melting ice cream in a cooler. His mother smiled and handed him extra batteries.

A. TRY TOGETHER - USE THE STRATEGY

1. Identify the worksheet focus: inference.
2. Underline the most important words in the model or source.
3. State one rule or reading strategy you will use.
4. Explain how you will check your answer.

B. CORE PRACTICE - SHOW YOUR WORK

5. Use the source text in the worked example.

6. What event creates the problem?

7. What can you infer about Mateo?

8. Cite two actions as evidence.

9. Why does his mother smile?

10. Which action shows planning ahead?

11. State one fact, not an inference.

12. Make an inference about the younger brother.

C. INDEPENDENT FLUENCY - CALCULATE AND CHECK

13. Explain why that inference is weaker or stronger.

14. Write one accurate example of inference.

15. Write one non-example and explain why it fails.

16. Improve one earlier response with more precise vocabulary.

17. Underline the evidence or language feature in your improved response.

18. Write one question a careful reader or writer should ask.

19. Answer that question completely.

20. Check one response for conventions and correct it.

Name: _____

Date: _____

D. APPLY THE SKILL

21. Write a CER response: claim, evidence, reasoning about Mateo.

22. What inference would not be supported? Explain.

23. Add one detail that would strengthen the trait inference.

E. REASON, CHECK AND CORRECT

24. Explain why the inference strategy works.

25. Describe one likely mistake and show how to correct it.

EXIT TICKET + CHALLENGE

26. Apply the inference skill to one new example and explain your evidence or check.

Challenge: Create a rigorous new example of inference, solve or analyze it, and justify every decision.

F. STUDENT REVIEW - SHOW WHAT YOU UNDERSTAND

Use your own words so your teacher can see what you understand and what to practise next.

27. Explain one strategy you used today.

28. Check one answer in a different way.

29. Circle one: I understand it | I need more practice | I need help

30. The easiest part was: _____

31. The most difficult part was: _____

Why was it difficult? _____

32. My next practice step is: _____

TEACHER COPY - ANSWERS AND SUPPORT

ANSWER KEY

- A. 1) Focus named correctly. 2-4) Answers vary; strategy must be relevant.
- B. 5) source text. 6) power failure. 7) responsible/helpful. 8) flashlight, checks brother, saves food. 9) He acts responsibly. 10) placing ice cream in cooler. 11) Mother handed batteries. 12) Answers vary; little direct evidence about brother.
- C. 13-20) Answers vary; require accuracy, clear explanation, supporting evidence, and correct conventions.
- D. 21-23) Answers vary; use the requested structure and evidence.
- E. 24) Answers vary; explain the strategy, not just the answer. 25) Answers vary; include a corrected example.
- EXIT. 26) Teacher checks accurate application and explanation.
- Challenge: Answers vary. Check that the student's example follows every condition and that the reasoning is mathematically correct.
- F. 27-28) Answers vary. Look for a clear strategy and a valid second check. 29-32) Use the reflection to identify confidence, difficulty and the next teaching step.

COMMON MISCONCEPTIONS

Watch for answers that name inference without evidence or explanation. Ask the student to point to the exact clue, rule, or text detail.

TEACHER CHECK

- ☐ Uses an appropriate Grade 4 ELA strategy.
- ☐ Shows or explains thinking clearly.
- ☐ Checks a response using evidence, a rule, or a second method.
- ☐ Identifies a specific difficulty and useful next practice step.

PARENT / TEACHER TIP

Ask the child to explain how they know, not only state an answer. Have them point to the text evidence or language rule, then revise one response aloud.

NEXT STEP

Revisit the item the child marked difficult. Model one example, solve one together, then ask the child to complete one independently and explain the strategy.
