Year 1 Maths - Collect and Display Data

Australian Curriculum v9 | AC9M1ST01 / AC9M1ST02

LEARN IT - look, say and notice

Model: Ask one clear question, record one response per person, then draw one symbol for each response. A key says one symbol = one vote.

Remember: Every response must be counted once and every display symbol must represent one item.

A. TRY IT TOGETHER

1. Which is a data question: “Do you like apples?” or “Apples are nice”?

2. Tally 4 votes for cats.

3. If one star means one vote, how many votes are 6 stars?

B. MY PRACTICE

1. Make a tally for 7.

2. A display has 5 sun symbols and 3 rain symbols. Which is more common?

3. How many more suns than rain symbols?

4. Name two categories for a transport survey.

5. Write one conclusion from data: red 6, blue 4.

C. I CAN DO IT

Create a one-to-one display for dog 3, cat 5, bird 2. Include a title and key.

Year 1 Maths - Collect and Display Data

Australian Curriculum v9 | AC9M1ST01 / AC9M1ST02

D. USE IT IN A REAL SITUATION

Survey five people using a two-choice question. Record, display and write which category is more frequent.

E. CHECK AND EXPLAIN

1. How can you check that no response was counted twice?

2. Why does a display need labels and a key?

MY LEARNING REVIEW

☐ I can do it. ☐ I need a little help. ☐ I need more practice.

I understood:

I found this difficult:

PARENT / CARER TIP

Run a tiny family survey. Let the child ask, tally, draw and explain one conclusion.

Year 1 Maths - Collect and Display Data

Australian Curriculum v9 | AC9M1ST01 / AC9M1ST02

COMPLETE ANSWER KEY

Guided	Question; tally four; 6 votes.
Practice	Tally 7; sun; 2; valid categories; red is more frequent by 2.
Independent	Correct symbols: 3,5,2 with labels/title/key.
Application	Results vary; five total responses and a valid comparison required.

TEACHER NOTES - what to notice

Success evidence: Collects categorical data, creates a one-to-one display and compares frequencies.

Common difficulty: Drawing decorative symbols that do not match the recorded frequency.

Next step: Ask a three-category question and compare the greatest and least frequencies.
