Year 1 Maths - Duration and Sequence of Events

Australian Curriculum v9 | AC9M1M03

LEARN IT - look, say and notice

Model: A week has 7 days. Monday comes before Tuesday. A school term lasts many weeks; brushing teeth lasts only minutes.

Remember: Use years, months, weeks, days and hours to match the event.

A. TRY IT TOGETHER

1. What comes after Wednesday?

2. Choose the better unit for a holiday: hours or weeks.

3. Put morning, afternoon, evening in order.

B. MY PRACTICE

1. Write the days from Friday to Monday.

2. Choose: a birthday returns each year/month.

3. Which is longer: one day or one week?

4. Put breakfast, lunch, dinner in order.

5. Name an event that lasts about one hour.

C. I CAN DO IT

Draw and label four events in the order they happen during one day.

D. USE IT IN A REAL SITUATION

A class project starts Monday and ends Friday. Count the named days and describe its duration.

E. CHECK AND EXPLAIN

1. Why is “two” not a complete duration?

2. Can two events start in order but last different amounts of time?

MY LEARNING REVIEW

☐ I can do it. ☐ I need a little help. ☐ I need more practice.

Independent	Four logically sequenced events.
Application	Monday to Friday names five calendar days; accept explanation of school-week duration.

TEACHER NOTES - what to notice

Success evidence: Describes and sequences events using appropriate calendar and duration units.

Common difficulty: Confusing when an event occurs with how long it lasts.

Next step: Compare two timelines with the same events but different durations.
