Quick oral check

- What comes after 9?
- What comes before 15?
- Show 13 using objects.
- Which is larger: 7 or 17?

Parent/Teacher Tip

Use buttons, blocks or pasta to build each number. Ask your child to say the number name, find the numeral, then place it on a 0-20 number line. For teen numbers, build one group of ten first.

I can...

- ☐ name numerals from 0 to 20.
- ☐ put numbers in sequence.
- ☐ represent numbers with objects or dots.
- ☐ order numbers from smallest to largest.

Support

Read number names aloud and let children use counters. Extend by asking for one more or one less.
