

Year 4 Maths - Money, Time and Word Problems

Name: _____ Date: _____

ACARA v9.0 Target

AC9M4N06 / AC9M4M02 - solve practical problems involving money, time, operations and measurement contexts.

Learning Intention

I can read word problems carefully, choose the operation and show my working clearly.

Maths Strategy

Circle the numbers, underline the question, choose the operation, then check if your answer makes sense.

Worked Example

Example: A class spends \$36 on seeds and \$48 on tools. Total cost = $\$36 + \$48 = \$84$. If they had \$100, change = \$16.

Success Checklist

- ☐ I can find important information.
- ☐ I can choose an operation.
- ☐ I can explain my answer in context.

Mini Practice

Write a number sentence for this story: A bus leaves at 9:15 and arrives 45 minutes later.

Parent Quick Play

Make it real at home with coins, clocks, snacks, steps or prices. Keep the maths short, funny and low pressure.

Teacher Class Starter

Start with one modelled example. Ask students to explain the strategy before they calculate independently.

 **Before you begin:** Read the example, say the strategy aloud, then try the mini practice. Mistakes are clues that help your brain grow.

Year 4 Maths - Money, Time and Word Problems

Page 2 - Practice and problem solving

Warm Up

1. $\$25 + \$18 = \$$ _____
2. 3:20 plus 30 minutes = _____
3. A 2 m ribbon is cut into 4 equal pieces. Each piece is _____ cm

Build Your Skills

1. The school garden club buys 4 packets of seeds for \$7 each and one watering can for \$18. What is the total cost? _____
2. A movie starts at 10:35 am and runs for 95 minutes. What time does it finish?

3. A walking track is 850 m long. Harper walks it twice, then walks 300 m more. How far does she walk altogether? _____

Strong Challenge

Write your own two-step money or time problem. Include the answer and a sentence explaining the strategy.

I Can Checklist

- ☐ I can understand a word problem.
- ☐ I can choose the correct operation.
- ☐ I can write an answer sentence.

Teacher Feedback

What went well:

Next step: _____

 **High Five!** You slowed down, found the clues and solved the story. That is real-life maths!

Year 4 Maths - Money, Time and Word Problems - Answer Key

For teachers, parents and tutors

Detailed Answers

1. Warm Up: \$43; 3:50; 50 cm.
2. Garden: $4 \times \$7 = \28 ; $\$28 + \$18 = \$46$.
3. Movie: 10:35 am + 95 minutes = 12:10 pm.
4. Walking: $850 \times 2 = 1700$ m; $1700 + 300 = 2000$ m or 2 km.
5. Challenge: Answers vary; look for two steps, correct calculation and a clear answer sentence.

Parent Tip - At Home

Use real receipts, clocks or coins. Ask one quick question, then celebrate the strategy, not only the answer.

Teacher Tip - In Class

Teach a four-step routine: Read, mark numbers, choose operation, answer in a sentence. Keep it visible on the board.

Extension Idea

Create a mini market problem with at least three prices and one change calculation.
