

# Science Explorers — Features of Animals

Foundation Science | Biological Sciences

Aussie Primary  
Academy

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Australian Curriculum v9.0 Aligned | AC9SFU01

## LEARNING INTENTION

I am learning to observe and describe the external features of animals.

## WARM UP — ANIMAL WATCH!

Think of your favourite animal. Draw it in the big box and write its name.

Draw your animal here

My animal is called: \_\_\_\_\_

## A — ANIMAL BODY PARTS

Write the correct body part in each big box:

Word bank: wings legs tail fur beak scales

A bird uses these to fly: \_\_\_\_\_

A fish is covered in: \_\_\_\_\_

## B — TICK THE FEATURES

Tick the features YOUR animal has:

☐ 4 legs

☐ Wings

☐ Fur or hair

☐ A tail

## C — DESCRIBE YOUR ANIMAL

Write about your animal using describing words:

My animal is covered in \_\_\_\_\_

It has \_\_\_\_\_ legs.

It lives \_\_\_\_\_

## D — ANIMAL NEEDS

Tick what an animal needs to stay alive:

☐ Food

☐ Water

☐ Shelter

☐ Television

## FUN REAL-LIFE ACTIVITY

Animal Spotter! Go for a walk and spot 3 different animals (birds, insects, pets). Write or draw what you see. What body parts can you notice?

## STUDENT REFLECTION

[ ] I can name animal body parts

[ ] I can describe what an animal looks like

[ ] I know what animals need to survive

## TEACHER FEEDBACK

\_\_\_\_\_

\_\_\_\_\_

## TIPS

**Parent:** Watch a nature documentary together. Pause and ask: 'What body parts can you see? How does it move? What does it eat?'

**Teacher:** Bring in animal picture cards. Students observe features and record
