

Science Explorers — Features of Plants

Foundation Science | Biological Sciences

Aussie Primary
Academy

Name: _____

Date: _____

Australian Curriculum v9.0 Aligned | AC9SFU01

LEARNING INTENTION

I am learning to observe and describe the external features of plants.

WARM UP — LOOK AT A PLANT!

Go outside and look at a real plant. Draw it in the big box below.

Draw your plant here

A — PARTS OF A PLANT

Write the name of each plant part in the big box:

Word bank: roots stem leaves flower

The green flat parts are called: _____

The colourful part that smells nice: _____

B — TICK WHAT YOU SEE

Tick every feature you can see on a real plant:

☐ Leaves

☐ Flowers

☐ Roots

☐ Seeds

C — DESCRIBE YOUR PLANT

Use describing words to write about your plant:

My plant is _____ in colour.

The leaves feel _____

My plant is _____ and _____

D — NEEDS OF A PLANT

Tick what a plant needs to stay alive:

☐ Sunlight

☐ Water

☐ Toys

☐ Soil

FUN REAL-LIFE ACTIVITY

Plant a Seed! Plant a bean or sunflower seed in a cup of soil. Water it every day and draw what you see each week. Watch it grow!

STUDENT REFLECTION

[] I can name parts of a plant

[] I can describe what a plant looks like

[] I know what a plant needs to grow

TEACHER FEEDBACK

TIPS

Parent: Point out plants in the garden or park. Ask: 'Can you see the roots? The stem? The leaves?' Name the parts together!

Teacher: Bring a real plant to class. Students observe and
