

Maths Adventure for National Science Week: The Lost Treasure of Coral Bay

Year 2 · National Science Week Special

ACARA V9.0 — AC9M2N04, AC9M2N05, AC9M2N06 (Number: addition and subtraction of 1- and 2-digit numbers, multiplication and division, mathematical modelling)

Ahoy, Maths Explorer! Captain Ruby's treasure map was torn apart in a wild storm off the coast of Coral Bay! She has found four scattered map pieces — but each one is locked behind a maths clue. Solve every clue correctly, crack the final code, and help Captain Ruby find the lost treasure before the tide comes in!

Learning Intention: Students will solve addition, subtraction, and simple multiplication and division word problems using 1- and 2-digit numbers, and use their answers to crack a numerical code.

Warm-Up: Ready Your Sea Legs

$27 + 15 = \underline{\quad}$

$52 - 24 = \underline{\quad}$

$\text{Double } 6 = \underline{\quad}$

$5, 10, \underline{\quad}, 20, 25$

The Adventure: Solve the Map Clues

CLUE 1 · ADDITION

Captain Ruby found 34 gold coins in one chest and 27 gold coins in another. How many gold coins does she have altogether?

Answer:

CLUE 2 · ADDITION

The ship sailed 45 km along the reef, then another 38 km. How far did it sail in total?

Answer: km

CLUE 3 · SUBTRACTION (MONEY)

Ruby had \$60 to spend on rope and supplies. She spent \$24. How much money does she have left?

Answer:

CLUE 4 · MULTIPLICATION

There are 4 treasure chests. Each chest holds 5 gold coins. How many gold coins are there in total?

Answer:

CLUE 5 · MULTIPLICATION (DOUBLING)

The treasure is buried twice as deep as Ruby's spear is long. Her spear is 15 cm long. How deep is the treasure buried?

Answer: cm

CLUE 6 · TIME

Ruby left the ship at 9:30am. The walk to the treasure took 30 minutes. What time did she arrive?

Answer:

Unlock the Treasure Chest

Take the **ones digit** from your answers to Clues 1, 2, 3, and 4. Write them in order to reveal the 4-digit lock code!

Clue 1 → Clue 2 → Clue 3 → Clue 4

Challenge: Sharing the Treasure

Ruby wants to share 20 gold coins equally between herself and 3 crew members (4 people in total). How many gold coins does each pirate get?

Each pirate gets:

Bonus Challenge: Around the Treasure Chest

Ruby's treasure chest is a rectangle. Two sides measure 8 cm and two sides measure 5 cm. What is the total distance around the chest (the perimeter)?

Answer: cm

Design Your Own Pirate Coin

You found the treasure! Design your own gold coin below and give it a name.

Case Status

Clues solved correctly: ____ / 6

☐ Treasure Found!

☐ So Close — Try Again

Parent/Teacher Tip: Encourage your child to use a number line or hundreds chart for the 2-digit addition and subtraction clues — it makes the 'jumps' of tens and ones visible rather than abstract.

For teachers and parents: use this page to check student responses.

Warm-Up Answers

$27 + 15 = 42$ $52 - 24 = 28$ Double 6 = 12 5, 10, 15, 20, 25

Adventure Clue Answers

Clue 1: $34 + 27 = 61$ gold coins

Clue 2: $45 + 38 = 83$ km

Clue 3: $\$60 - \$24 = \$36$

Clue 4: $4 \times 5 = 20$ gold coins

Clue 5: $15 \times 2 = 30$ cm

Clue 6: $9:30\text{am} + 30 \text{ minutes} = 10:00\text{am}$

Treasure Chest Code

Ones digit of Clue 1 (61) → 1 Clue 2 (83) → 3 Clue 3 (36) → 6 Clue 4 (20) → 0

Final Code: 1 - 3 - 6 - 0

Challenge & Bonus Answers

Sharing the Treasure: $20 \div 4 = 5$ gold coins each.

Around the Treasure Chest: $8 + 8 + 5 + 5 = 26$ cm.
