CHECKING MY WORK	I checked the whole task and found a specific success, mistake or improvement.	I checked most of my work and found something to celebrate or correct. EXPLAINING MY LEARNING	I clearly explained what I learned from reviewing my work.	I described something I learned but needed a clearer explanation.	I made a general statement and needed prompting to add detail.	I did not yet explain what I learned.
PLANNING MY NEXT STEP	I chose a clear, realistic action that will help me next time.	I chose a useful next step, but it could be more specific.	I suggested a general next step but needed help to make it practical.	I did not yet identify what I could do next time.
