

ACARA V9.0 · AC9M1N05 — Solve practical problems involving addition and subtraction within 20

Learning Intention

I can solve addition and subtraction stories within 20.

Warm-Up

Use a number line if it helps.

$$7 + 5 = \underline{\hspace{2cm}}$$

1. Playground

9 children are playing. 6 more come to play.

How many children are playing now?

.....

2. Marbles

14 marbles in a jar. 8 marbles are given away.

How many marbles are left?

.....

3. Sticker Book

8 stickers on one page, 7 on another.

How many stickers altogether?

.....

4. Balloons at School

16 balloons at the start of the day. 9 balloons pop.

How many balloons are left?

.....

High Five Self-Check

Colour a star for each problem you solved on your own.

Extension Activity

Write your own addition and subtraction story using numbers up to 20.

Parent / Teacher Tip

Ten-frames are especially useful at Year 1 for numbers within 20 — they help your child instantly 'see' how close a number is to 10.

Answers & Marking Guide

Warm-Up

12 ($7 + 5 = 12$)

Main Problems

1. **Playground:** 15 children ($9 + 6 = 15$)

2. **Marbles:** 6 marbles ($14 - 8 = 6$)

3. **Sticker Book:** 15 stickers ($8 + 7 = 15$)

4. **Balloons at School:** 7 balloons ($16 - 9 = 7$)

Marking Tip

Look for correct use of the ten-frame, number line, or counters as working, not only the final digit.
