

Sequencing Events

Name:

Date:

ACARA V9.0 — AC9E3LY05: Use comprehension strategies such as summarising and monitoring meaning to build literal understanding of the order of events.

Learning Intention: I am learning to identify the order of events in a text using sequencing words.

Key Idea: Sequencing means putting events in the order they happened. Words like first, next, after, then and finally help readers follow the order of events.

Warm-Up: Which word usually comes at the very end of a sequence? first next finally

A. Read the Passage

Growing a Sunflower

First, Leo pushed a small sunflower seed into a pot of soil and gave it a gentle drink of water. A few days later, a tiny green shoot poked up through the dirt. Next, Leo placed the pot on the sunny windowsill so the seedling could grow taller each day.

After several weeks, small leaves unfolded and the stem grew strong and thick. Finally, a bright yellow flower bloomed at the top, turning slowly to follow the sun across the sky. Leo was so proud of the sunflower he had grown all by himself.

B. Order the Events

Number these events 1–4 in the order they happened.

___ A flower bloomed at the top.

___ Leo planted a seed in soil.

___ Small leaves unfolded and the stem grew.

___ A green shoot poked through the dirt.

C. Sequencing Words

Find and write 3 sequencing words used in the passage.

.....

D. Write the Sequence

Describe 4 steps of something you do every morning, using sequencing words (first, next, then, finally).

.....
.....
.....
.....

Answer Guide & Extension Activities

Suggested Answers – B & C

B. Order: 4, 1, 3, 2

C. First, Next, After, Finally (any 3)

Suggested Answers – D

Answers will vary – check students use at least 3 sequencing words and describe steps in a logical order.

High Five Stars – Self Assessment

★ I found the correct order of events

★ I identified sequencing words

★ I wrote my own sequence

★ I used sequencing words correctly

Extension Activity

Draw a 4-box comic strip showing the sunflower's growth from seed to flower, using one sequencing word under each box.

Parent/Teacher Tip

When following a recipe or set of instructions together, point out sequencing words like 'first' and 'then' to reinforce the concept.

Reflection

Why do you think authors use sequencing words when telling a story?
