

LEARNING INTENTION

I can convert between 12-hour and 24-hour time.

SUCCESS CRITERIA

- ☐ I can convert 12-hour time to 24-hour time
- ☐ I can convert 24-hour time to 12-hour time
- ☐ I can read timetables using 24-hour time

STRATEGY BOX

For PM times after 12, add 12 to the hour to get 24-hour time. For 24-hour times over 1200, subtract 12 to get the PM hour. Morning (AM) times under 1200 usually stay the same digits.

WORKED EXAMPLE

3:45 PM in 24-hour time:

$3 + 12 = 15$, so 3:45 PM = **15:45**

PART A — WARM UP

- Convert 9:00 AM to 24-hour time: _____
- Convert 14:00 to 12-hour time: _____
- Convert 7:30 PM to 24-hour time: _____
- Convert 08:15 to 12-hour time: _____

PART B — CORE SKILLS

- Convert 11:50 PM to 24-hour time: _____
- Convert 23:05 to 12-hour time: _____
- A train leaves at 16:40. What time is this in 12-hour time?
- Show your working for Question 7 below.

TIME HELPER

24-hour time is used on timetables, digital clocks and in many countries to avoid confusion between AM and PM. Midnight is 00:00, and midday (noon) is 12:00.

WORKING SPACE

PART C — CHALLENGE

9. Real-World Context: A bus timetable shows departures at 07:15, 12:40 and 19:05. Convert all three times to 12-hour time (with AM/PM).

10. Reasoning: Why do you think timetables (buses, trains, flights) usually use 24-hour time instead of 12-hour time? Give at least one reason.

REFLECTION

Today I learned...

I CAN CHECKLIST

- ☐ I can convert 12-hour to 24-hour time
- ☐ I can convert 24-hour to 12-hour time
- ☐ I can read a timetable

TEACHER FEEDBACK

Strength: _____

Next Step: _____

PARENT TIP

Check a real bus or train timetable together and practise converting the times.

TEACHER TIP

A simple "add/subtract 12" rule chart on the wall helps students self-correct quickly.

ANSWER KEY (FOR PARENT / TEACHER USE)

Q1: 9:00 AM = 09:00

Q2: 14:00 = 2:00 PM

Q3: 7:30 PM = 19:30

Q4: 08:15 = 8:15 AM

Q5: 11:50 PM = 23:50

Q6: 23:05 = 11:05 PM

Q7: 16:40 = 4:40 PM

Q8: Working shown as above

Q9: 07:15 = 7:15 AM; 12:40 = 12:40 PM; 19:05 = 7:05 PM

Q10: Accept reasoned answer — 24-hour time avoids AM/PM confusion, important for safety and accuracy in travel
