Teaching sequence

Read and discuss the model, plan orally, then draft and revise. Split across sessions and adjust to the learner. Year 2 may write a shorter text or draw before drafting. Supply extra paper when needed. Models are examples, not scripts to memorise.

Answers and acceptable alternatives

The kite catches in a low tree. Mia first tugs the string, then asks for help. Dad can reach the branch from the ground; moving to an open space reduces the chance of another snag.

Notice task: B links the problem and a response. A changes topic without resolving the problem.

Support, challenge and coaching

Support: Retell three events aloud: problem, action, solution. Use First / Next / Finally if helpful.

Challenge: Include an unsuccessful attempt and explain why the next attempt works.

Ask: What happened because of that action?

Observe learning and check transfer

For each page 4 target skill, record Not yet / With support / Independently. Note adult prompting or scribing. Give one next step and let the child revise.

Later task: A Hat Blown Away. Hide the model and check the same skill on a new task. Accept other responses that satisfy the criteria.
