

Place Value to 100

Year 2 Mathematics | ACARA Final APA Version

Name: _____

Date: _____

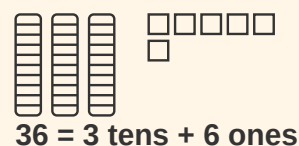

ACARA v9.0: AC9M2N02 - partition, rearrange, regroup and rename two-digit and three-digit numbers using place value.
Supporting: AC9M2N01 - recognise, represent and order numbers.

Learning Intention

I can read, build and partition two-digit numbers into tens and ones.

Strategy Box

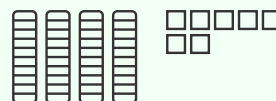

A two-digit number has tens and ones. The first digit tells how many tens. The second digit tells how many ones.

Worked Example

47 has 4 tens and 7 ones.

$$47 = 40 + 7$$

A. Warm Up

Start strong! Use the example to help you.

1. $25 = \underline{\quad} \text{ tens} + \underline{\quad} \text{ ones}$

2. $38 = \underline{\quad} \text{ tens} + \underline{\quad} \text{ ones}$

3. $60 = \underline{\quad} \text{ tens} + \underline{\quad} \text{ ones}$

4. $4 \text{ tens} + 9 \text{ ones} = \underline{\quad}$

Place Value to 100

Year 2 Mathematics | Build, Think and Explain

Name: _____

Date: _____

ACARA v9.0: AC9M2N02 - partition, rearrange, regroup and rename two-digit and three-digit numbers using place value.
Supporting: AC9M2N01 - recognise, represent and order numbers.

B. Build Your Skills

Great thinking! Now try these on your own. Leave space to show your strategy.

1. 5 tens + 2 ones = _____

2. 7 tens + 0 ones = _____

3. 84 = _____ tens + _____ ones

4. 91 = _____ tens + _____ ones

5. 63 = _____ + _____

C. Word Problem

Zara has 6 packs of ten pencils and 8 loose pencils. How many pencils does Zara have? Show your strategy.

D. Maths Challenge

Think like a mathematician. Use the digits 3 and 8 to make two different two-digit numbers. Which number is greater? How do you know?

I Can Checklist

- ☐ I can identify tens and ones.
- ☐ I can partition numbers.
- ☐ I can solve a word problem.

Place Value to 100 - Answer Key

Year 2 Mathematics | Teacher Notes

Name: _____

Date: _____

ACARA v9.0: AC9M2N02 - partition, rearrange, regroup and rename two-digit and three-digit numbers using place value.
Supporting: AC9M2N01 - recognise, represent and order numbers.

Answer Key

- A. Warm Up: 1) 2 tens + 5 ones. 2) 3 tens + 8 ones. 3) 6 tens + 0 ones. 4) 49.
B. Build Your Skills: 1) 52. 2) 70. 3) 8 tens + 4 ones. 4) 9 tens + 1 one. 5) $60 + 3$.
C. Word Problem: Zara has 68 pencils. Strategy: 6 tens = 60, plus 8 ones = 68.
D. Maths Challenge: 38 and 83. 83 is greater because it has 8 tens, and 8 tens is more than 3 tens.

Parent/Teacher Tip

Use bundles of 10 objects, such as straws or blocks, to build two-digit numbers. Ask: How many tens? How many ones?

Extension Idea

Choose any two digits and make the smallest and greatest two-digit numbers you can. Explain your thinking.
