Year 1 Number Sense Mixed Practice

YEAR 1 MATHS | AC9M1N01 + AC9M1N02

Name: _____ Date: _____

LEARNING INTENTION + LEARNING TARGET
I can order numbers to 120 and split numbers into parts.

KEY STRATEGY + WORKED EXAMPLE
Count carefully. Compare numbers. Make groups of ten.
Example: 23 = 2 tens and 3 ones = 20 + 3. Also, 12 = 10 + 2 = 6 + 6.

TRY TOGETHER - USE THE STRATEGY

1. Write smallest to largest: 42, 24, 64. _____

2. 36 = ____ tens and ____ ones. 36 = ____ + ____

CORE PRACTICE - SHOW YOUR THINKING

3. Fill the gaps: 96, 97, ____, 99, ____, 101.

4. Fill the gaps: 116, ____, 118, ____, 120.

5. Fill the gaps. Steps of 1.

50 ___ 52 ___ 54

6. Fill the gaps. Steps of 10.

80 ___ 100 ___ 120

INDEPENDENT PRACTICE - CALCULATE AND CHECK

7. 4 tens and 7 ones make ____.

8. Write smallest to largest: 120, 102, 99. _____

9. Circle the greater number: 87 or 78. Tell someone why.

ANALYSE & APPLY - REASON, CHECK AND CORRECT

10. Sam says 58 has 8 tens and 5 ones. Fix it: ____ tens, ____ ones.

11. Split 14 two ways: 14 = 10 + ____; 14 = 7 + ____.

EXIT TICKET + CHALLENGE

12. Circle the smaller number: 109 or 119.

Challenge: Show 18 in two parts: 18 = ____ + ____.

STUDENT REVIEW - SHOW WHAT YOU UNDERSTAND

- ☐ I used the strategy.
- ☐ I explained my thinking.
- ☐ I checked my answers.
- ☐ I know what to practise next.

My next practice step: _____

PARENT / TEACHER TIP: Use objects or a number chart. Ask: How do you know?

Year 1 Number Sense Mixed Practice

YEAR 1 MATHS | AC9M1N01 + AC9M1N02

ANSWER KEY + ACCEPTABLE GUIDANCE

1. 24, 42, 64.

2. 3 tens and 6 ones; 30 + 6.

3. 98; 100.

4. 117; 119.

5. 51; 53.

6. 90; 110.

7. 47.

8. 99, 102, 120.

9. 87. It has 8 tens; 78 has 7 tens.

10. 5 tens and 8 ones.

11. 4; 7.

12. 109. Challenge: any two non-negative whole numbers totalling 18, such as 10 + 8 or 9 + 9.

Curriculum scope: AC9M1N01 includes numbers to at least 120. AC9M1N02 includes partitioning one- and two-digit numbers in different ways. This page samples these skills; it is not a full assessment.

COMMON MISCONCEPTIONS

Digit order matters: 58 is 5 tens and 8 ones, not 8 tens and 5 ones.

Counting continues after 99: 100, 101, 102. Number-line labels must match equal steps.

PARENT / TEACHER TIP

Use bundles of ten and loose counters for questions 2, 7 and 10. For question 9, accept a correct explanation using a number line or place value.

NEXT STEP

If tens and ones are secure, ask your child to show 24 in two different ways, using objects first.
