LEARNING INTENTION

I am learning to identify and use nouns, verbs, adjectives and adverbs to make my writing more precise and vivid.

KEY IDEA

NOUNS name people, places or things. **VERBS** show action or being. **ADJECTIVES** describe nouns. **ADVERBS** describe verbs, adjectives or other adverbs — they often tell **HOW, WHEN, WHERE** or **HOW OFTEN** an action happens.

WARM UP — QUICK CHECK!

In 'The brave firefighter quickly rescued the cat', label: brave = quickly = rescued = firefighter =

A — IDENTIFY THE WORD CLASS

Write N (noun), V (verb), ADJ (adjective) or ADV (adverb) for each bold word:

1. The enormous wave crashed onto the shore.

2. She carefully wrapped the birthday present.

3. The dog barked loudly at the stranger.

4. My sister won the swimming race.

B — UPGRADE THE SENTENCE

Rewrite each sentence adding a vivid adjective **AND** a precise adverb:

Example: The dog ran. → The enormous dog sprinted joyfully.

1. The dog ran.

2. The girl spoke.

3. The rain fell.

C — SORT THE WORDS

Sort: mountain, sprinted, gigantic, silently, teacher, jumped, brilliant, slowly, river, gracefully

EXTENSION / CHALLENGE

Choose a paragraph from a book. Highlight adjectives in one colour and adverbs in another colour. Count how many of each the author used and discuss their effect on the reader.

PARENT TIP

Play 'word class charades' — act out a verb, describe something using an adjective, or demonstrate an adverb (e.g. walk 'slowly'). This makes grammar physical and memorable!

TEACHER TIP

Connect to writing — show how precise word choice strengthens descriptive writing. Use before/after example sentences to demonstrate the power of well-chosen adjectives and adverbs.
