

ACARA V9.0 · AC9MFN05 — Represent practical situations involving addition, subtraction and quantification with materials

Learning Intention

I can recognise coins and count small amounts using objects.

Warm-Up

Count the coins.

(2 coins) + (1 coin) = _____ coins

1. Coin Jar

You have 3 coins in a jar. Dad adds 2 more coins.

How many coins are in the jar now?

.....

2. Piggy Bank Sort

You sort 4 gold coins and 3 silver coins.

How many coins altogether?

.....

3. Shop Play

You 'buy' a toy using 5 pretend coins. You had 8.

How many coins do you have left?

.....

4. Counting Coins

2 coins in your left hand, 2 in your right hand.

How many coins in total?

.....

High Five Self-Check

Colour a star for each problem you solved on your own.

Extension Activity

Sort real coins at home into piles and count how many are in each pile.

Parent / Teacher Tip

At Foundation level, the goal is recognising and counting coins, not calculating value — real coins for hands-on sorting work best.

Answers & Marking Guide

Warm-Up

3 coins ($2 + 1 = 3$)

Main Problems

1. **Coin Jar:** 5 coins ($3 + 2 = 5$)

2. **Piggy Bank Sort:** 7 coins ($4 + 3 = 7$)

3. **Shop Play:** 3 coins left ($8 - 5 = 3$)

4. **Counting Coins:** 4 coins ($2 + 2 = 4$)

Marking Tip

Success is confident counting of physical or pictured coins; exact dollar/cent value is not expected yet at this level.
