

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: _____

Date: _____

LEARNING INTENTION	adapt plot, character, setting or ideas from a known text and experiment with literary devices
KEY IDEA	Adaptation transforms a source through deliberate changes while retaining a recognisable connection. Copying names or events is not enough; the new choices should create a new effect or viewpoint.
WORKED MODEL	Source pattern: a traveller ignores a warning and faces consequences. Adaptation: a space technician dismisses an AI alert. The plot pattern remains, while setting, conflict and imagery are transformed.

SUCCESS CRITERIA - I CAN

[] identify source pattern [] transform key elements [] use literary devices [] explain choices

A. NOTICE AND IDENTIFY

1. Sort as retelling or adaptation: same events/new wording; same conflict/new setting and viewpoint.

2. Identify four adaptable elements: plot, character, setting, central idea, narration or ending.

3. Explain why changing only character names is not a meaningful adaptation.

B. APPLY AND EXPLAIN

4. Transform a lost-in-the-forest conflict into a digital or urban setting.

5. Change a minor character into the narrator. List two events that would be interpreted differently.

6. Select metaphor, foreshadowing or recurring motif and explain how it supports the adaptation.

C. INDEPENDENT FLUENCY - CHECK AND CREATE

7. Complete a source-to-new-text map: retain, transform, omit, add.

8. Check originality: underline recognisable source pattern and circle genuinely transformed choices.

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: _____

Date: _____

D. APPLY THE SKILL IN CONTEXT

9. Plan an adaptation of a familiar quest: new setting, changed goal, obstacle sequence, turning point and ending.

10. Draft the turning point in 120-150 words using two purposeful literary devices.

11. Annotate each device and explain how it changes reader expectation or emotion.

E. REASON, EVALUATE AND TRANSFER

12. Evaluate: an adaptation keeps every event but moves them to the future. Is this transformation substantial? Propose three deeper changes.

13. Rewrite the ending from another character's viewpoint, then explain how the central idea shifts.

F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING

[] I can transform a source text and explain purposeful adaptation choices.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: _____

The most difficult decision was _____ because _____

One correction or improvement I made: _____

My next practice step: _____

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support

Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

COMPLETE ANSWER KEY

1. retelling; adaptation.
2. Any four listed elements.
3. Structure, relationships, viewpoint and meaning remain unchanged; transformation requires deliberate reinterpretation.
- 4-6. Accept coherent transformation and a device linked to intended effect.
7. Plan must clearly distinguish retained source pattern from new creative decisions.
8. Evidence should show recognisable connection without copied expression.
9. Check complete narrative sequence and meaningful changes.
- 10-11. Draft must integrate two devices; annotation explains effect, not merely labels.
12. Setting change alone may be superficial. Examples: change narrator, consequence, motivation, structure or central idea.
13. Viewpoint should alter interpretation and explanation should trace the idea shift.

TEACHER CHECK AND NEXT STEP

[] Identifies the target feature accurately and cites evidence.

[] Applies the feature independently and explains its effect.

Next step: model one difficult item, complete one together, then repeat independently in a new context.

COMMON MISCONCEPTION / WATCH OUT

Adaptation is transformation, not copying with renamed characters.

Literary devices should influence meaning or response, not be added as decorations.

EXTENSION AND RE-TEACH

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
