

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: _____

Date: _____

LEARNING INTENTION	use formality, paraphrasing, questioning and clarification to develop and evaluate ideas
KEY IDEA	Strong interaction involves accurate listening, purposeful questions, respectful challenge, evidence and responsive language. A contribution should move the discussion forward.
WORKED MODEL	Speaker: The trial was unfair. Response: So your concern is that groups had different time limits. What evidence shows this affected the result?

SUCCESS CRITERIA - I CAN

[] paraphrase accurately [] clarify and interrogate ideas [] support arguments [] evaluate information

A. NOTICE AND IDENTIFY

1. Choose the accurate paraphrase rather than an opinion or repetition.

2. Turn 'Did it work?' into an open question that invites evidence.

3. Identify the stronger clarification: What do you mean by fair? / Why are you wrong?

B. APPLY AND EXPLAIN

4. Improve: That's a terrible idea. Use acknowledgement, disagreement and reason.

5. Write a follow-up question that tests the source or evidence behind a claim.

6. Adjust the same contribution for a class discussion and a formal community panel.

C. INDEPENDENT FLUENCY - CHECK AND CREATE

7. Complete a five-move response: paraphrase -> connect -> question -> viewpoint -> evidence.

8. Check whether each move responds to the previous speaker rather than changing topic.

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: _____

Date: _____

D. APPLY THE SKILL IN CONTEXT

9. Discussion issue: Should the school replace some lawn with native habitat? Record two viewpoints fairly.

10. Write two clarifying questions, one evidence-testing question and one respectful counterargument.

11. Draft a provisional conclusion that evaluates information and identifies what remains uncertain.

E. REASON, EVALUATE AND TRANSFER

12. Diagnose a discussion where speakers interrupt, repeat claims and ignore questions. Propose a repair protocol.

13. Write an eight-turn dialogue showing paraphrase, clarification, challenge, evidence, revision of opinion and summary. Label each move.

F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING

[] I can use interaction skills to develop, challenge and evaluate ideas respectfully.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: _____

The most difficult decision was _____ because _____

One correction or improvement I made: _____

My next practice step: _____

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support

Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

COMPLETE ANSWER KEY

1. Correct response preserves the speaker's meaning without adding judgement.
2. Example: What evidence shows the solution was effective?
3. What do you mean by fair?
4. Example: I understand the intended benefit; however, I disagree because the available data covers only one week.
5. Examples: Who collected the data? What was the sample? Can the claim be checked elsewhere?
6. Panel version should show greater formality, precise attribution and controlled turn-taking.
- 7-8. Each move must connect logically and accurately to the previous idea.
9. Include environmental/community benefits and play/maintenance/cost concerns without caricature.
10. Questions must clarify terms or test evidence; counterargument needs acknowledgement and reason.
11. Conclusion should weigh evidence and name uncertainty rather than force certainty.
12. Use timed turns, active-listening paraphrase, question tracking and evidence requirements.
13. Dialogue must show genuine development, including a changed or refined position.

TEACHER CHECK AND NEXT STEP

[] Identifies the target feature accurately and cites evidence.

[] Applies the feature independently and explains its effect.

Next step: model one difficult item, complete one together, then repeat independently in a new context.

COMMON MISCONCEPTION / WATCH OUT

Paraphrasing is not copying every word; it preserves meaning concisely.

A respectful discussion can include strong disagreement when claims are challenged with reasons and evidence.

EXTENSION AND RE-TEACH

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
