

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: _____

Date: _____

LEARNING INTENTION	identify and evaluate vivid and emotive vocabulary, imagery and figurative language
KEY IDEA	Authors use connotation, metaphor, simile, personification, idiom, imagery and hyperbole to shape feeling and create mental images. Analysis names the device, cites words and explains the effect.
WORKED MODEL	The drought tightened its fist around the town. Personification and metaphor present drought as a powerful attacker, creating tension and helplessness.

SUCCESS CRITERIA - I CAN

[] identify devices [] quote evidence [] explain effect rather than repeat meaning

A. NOTICE AND IDENTIFY

1. Identify the device: The moon was a silver coin. / The leaves whispered. / I waited a million years.

2. Underline the emotive words: The helpless animals were abandoned beside the filthy, dangerous drain.

3. Explain the connotation difference between 'confident' and 'arrogant'.

B. APPLY AND EXPLAIN

4. Improve 'The storm was strong' using imagery from two senses.

5. Change the literal sentence 'The hall was crowded' into a metaphor, then explain its effect.

6. Evaluate whether 'The homework mountain crushed the class' suits an information report. Revise for that purpose.

C. INDEPENDENT FLUENCY - CHECK AND CREATE

7. Find or create one simile and one personification about heat. Annotate comparison, image and mood.

8. Replace one cliché with fresh imagery, then check that the image is coherent rather than mixed.

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: _____

Date: _____

D. APPLY THE SKILL IN CONTEXT

9. Read: 'At dawn, the city stretched awake; buses growled, windows flashed gold and the cold air bit exposed hands.'
Identify three techniques with evidence.

10. Explain how the techniques combine to create mood and viewpoint. Use the pattern evidence -> technique -> effect.

11. Rewrite the passage to create a calm mood while preserving the setting and time.

E. REASON, EVALUATE AND TRANSFER

12. Compare 'protesters gathered' with 'a furious mob swarmed'. Analyse how selection of noun, adjective and verb positions readers.

13. Write a four-sentence description of a dry riverbed using one controlled metaphor, one sound image and one precise emotive word. Annotate each choice.

F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING

[] I can analyse how vivid, emotive and figurative language influences readers.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: _____

The most difficult decision was _____ because _____

One correction or improvement I made: _____

My next practice step: _____

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support
Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

COMPLETE ANSWER KEY

1. metaphor; personification; hyperbole.
2. helpless, abandoned, filthy, dangerous.
3. Both suggest self-belief, but 'arrogant' negatively suggests excessive pride or disregard for others.
4. Example: Wind hammered the roof while rain stung exposed skin. Evidence from two senses required.
5. Example: The hall was a packed tin. Effect may emphasise pressure, noise or lack of space.
6. It is vivid but too figurative for a measured report. Example: The class received a high volume of homework.
- 7-8. Check accurate device labels, purposeful mood and a fresh, logically consistent image.
9. city stretched/personification; buses growled/personification and sound imagery; flashed gold/visual imagery; air bit/personification/tactile imagery.
10. The city seems alive and energetic but physically harsh; answers must connect quoted evidence to effect.
11. Example: At dawn, the city slowly brightened; buses hummed, windows warmed to gold and cool air moved gently through the streets.
12. 'Mob' and 'swarmed' imply threat/disorder; 'furious' intensifies anger. The first wording is neutral.
13. Check controlled, non-mixed imagery and annotations explaining effect.

TEACHER CHECK AND NEXT STEP

[] Identifies the technique using exact evidence.

[] Explains an effect on mood, image or reader positioning.

Next step: compare literal and figurative versions and justify which better suits a purpose.

COMMON MISCONCEPTION / WATCH OUT

Naming a device is not analysis. Require: quoted words -> technique -> meaning/effect.

More devices do not guarantee better writing; imagery must be coherent and purposeful.

EXTENSION AND RE-TEACH

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
