

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: _____

Date: _____

LEARNING INTENTION	examine how media texts represent ideas and events and reflect their creation context
KEY IDEA	Media texts select words, images, sources and angles. Platform, audience, ownership, time and purpose influence what is included, emphasised or omitted.
WORKED MODEL	A local alert leads with safety instructions; a tourism post leads with a dramatic image. Both cover the same storm, but purpose and audience shape representation.

SUCCESS CRITERIA - I CAN

[] identify media choices [] infer context [] compare representations [] evaluate omissions

A. NOTICE AND IDENTIFY

1. Match context factor: platform, target audience, publication time, purpose, source.

2. Underline framing words: Brave residents battle savage storm.

3. Explain how image cropping can change interpretation without altering the original event.

B. APPLY AND EXPLAIN

4. Compare a news headline, government alert and social post about one event. Predict each priority.

5. A report quotes officials but no residents. Identify the representation gap.

6. Rewrite a sensational headline for an evidence-based school news report.

C. INDEPENDENT FLUENCY - CHECK AND CREATE

7. Create a context card: creator, audience, platform, time, purpose and evidence available.

8. Use it to explain two choices and one omission in a media text.

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: _____

Date: _____

D. APPLY THE SKILL IN CONTEXT

9. Headline A: 'Council rescues neglected park.' Headline B: 'Community plan replaces popular play space.' Identify viewpoint and loaded wording.

10. List evidence needed to assess both representations.

11. Write a balanced 70-word report that distinguishes confirmed fact, attributed claim and unanswered question.

E. REASON, EVALUATE AND TRANSFER

12. Explain how a report created during an emergency may differ from one published six months later.

13. Design two thumbnails for the same story aimed at different audiences. Annotate framing, image, caption and likely effect.

F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING

[] I can analyse how media representation reflects context, audience and purpose.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: _____

The most difficult decision was _____ because _____

One correction or improvement I made: _____

My next practice step: _____

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support

Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

COMPLETE ANSWER KEY

1. Answers depend on examples; each factor should be defined accurately.
2. brave, battle, savage.
3. Cropping can remove participants, causes or scale, directing attention and changing perceived meaning.
4. News prioritises newsworthiness; alert prioritises action/safety; social post may prioritise reaction or engagement.
5. Lived experience and effects on residents are omitted.
6. Accept measured, specific wording without unsupported drama.
- 7-8. Context card must connect choices/omission to creator, audience, platform, time or purpose.
9. A frames council as saviour and park as neglected; B frames loss and popularity, potentially opposing change.
10. Plans, usage data, consultation, condition reports, quotations from multiple groups and timeline.
11. Check fact/claim/question separation and balanced attribution.
12. Immediate reports use limited evolving facts and urgent guidance; later reports can evaluate causes, outcomes and evidence.
13. Annotations must explain how framing differs, not simply change colours.

TEACHER CHECK AND NEXT STEP

[] Identifies the target feature accurately and cites evidence.

[] Applies the feature independently and explains its effect.

Next step: model one difficult item, complete one together, then repeat independently in a new context.

COMMON MISCONCEPTION / WATCH OUT

Representation is not automatically false; it is a selected construction that must be examined.

Do not infer bias from disagreement alone. Use language, source selection and omissions as evidence.

EXTENSION AND RE-TEACH

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
