

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: \_\_\_\_\_

Date: \_\_\_\_\_

|                    |                                                                                                                                                                                                |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| LEARNING INTENTION | plan, rehearse and deliver a spoken or multimodal presentation that develops a theme or argument                                                                                               |
| KEY IDEA           | Effective presentations combine purposeful structure, precise technical vocabulary, evidence, controlled voice and visual features that add meaning rather than duplicate speech.              |
| WORKED MODEL       | Opening question -> clear theme -> two sequenced claims with evidence -> considered response -> conclusion. Rehearsal notes: slow for statistic, pause after claim, point to labelled diagram. |

**SUCCESS CRITERIA - I CAN**☐ develop a theme ☐ sequence evidence ☐ control voice ☐ use complementary visuals**A. NOTICE AND IDENTIFY**

1. Match voice feature to effect: pitch, tone, pace, volume, pause.

---

2. Choose the better slide: dense paragraph or concise claim with labelled evidence. Explain.

---

3. Improve the opening 'Today I am talking about water' to establish theme and audience relevance.

---

**B. APPLY AND EXPLAIN**

4. Add signposts to organise an introduction, two main points and conclusion.

---

5. Convert a 45-word paragraph into concise slide text without losing the central idea.

---

6. Add rehearsal cues for one statistic, one emotional example and one transition.

---

**C. INDEPENDENT FLUENCY - CHECK AND CREATE**

7. Plan a two-minute presentation: audience, purpose, theme, opening, evidence sequence, visual and close.

---

8. Check whether every visual adds data, relationship, location or process beyond spoken words.

---

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**D. APPLY THE SKILL IN CONTEXT**

9. Topic: Reducing heat around the school. Draft an opening and two developed points using technical vocabulary and evidence placeholders.

10. Describe a diagram or graph that supports one point. Include title, labels, unit and source note.

11. Write delivery notes for pitch, tone, pace, volume, eye contact and two purposeful pauses.

**E. REASON, EVALUATE AND TRANSFER**

12. Adapt the presentation for younger students and a council meeting. Explain changes to vocabulary, evidence, tone and visuals.

13. Use a rehearsal rubric to evaluate clarity, development, timing, voice and visual integration; record two exact revisions.

**F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING**

[ ] I can plan and rehearse a spoken or multimodal presentation for purpose and audience.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: \_\_\_\_\_

The most difficult decision was \_\_\_\_\_ because \_\_\_\_\_

One correction or improvement I made: \_\_\_\_\_

My next practice step: \_\_\_\_\_

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support

Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

**COMPLETE ANSWER KEY**

1. Pitch=high/low; tone=attitude; pace=speed; volume=loudness; pause=emphasis/processing.
2. Concise claim with labelled evidence; it supports listening and adds usable information.
3. Example: How can a school save thousands of litres without reducing learning or play?
4. Examples: First, More importantly, In contrast, Therefore/In conclusion.
5. Preserve keywords, claim and essential evidence; remove full sentences unless quotation is necessary.
6. Statistic: slower pace/pause; example: controlled tone; transition: signpost and brief pause.
- 7-8. Plan must develop one coherent theme and give every visual a distinct contribution.
9. Expect clear heat-reduction theme, shade/material/vegetation options, technical vocabulary and evidence locations.
10. Complete conventions and credible source placeholder required.
11. Notes must be specific to moments in the presentation.
12. Younger audience=simpler concrete language/examples; council=precise formal language, stronger evidence and implementation detail.
13. Revisions must name exact changes, not 'practise more'.

**TEACHER CHECK AND NEXT STEP**

[ ] Identifies the target feature accurately and cites evidence.

[ ] Applies the feature independently and explains its effect.

Next step: model one difficult item, complete one together, then repeat independently in a new context.

**COMMON MISCONCEPTION / WATCH OUT**

A presentation is not a written report read aloud; delivery and audience connection matter.

Visuals should complement speech, not repeat every sentence in small text.

**EXTENSION AND RE-TEACH**

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
