

Aussie Primary Academy | Australian Curriculum v9.0 | Learn, Analyse and Practise

Name: _____

Date: _____

LEARNING INTENTION	explain and adapt how texts are organised into stages and phases for different purposes
KEY IDEA	A stage is a major section that advances a text's purpose; phases are smaller moves within it. Skilled authors may combine, reorder or adapt expected structures to engage an audience.
WORKED MODEL	Persuasive stage: position. Phases: issue context -> clear claim -> preview of reasons. An author may open with a brief anecdote before the claim to engage readers.

SUCCESS CRITERIA - I CAN

[] identify stages [] explain each phase's job [] adapt structure deliberately

A. NOTICE AND IDENTIFY

1. Match purpose and likely structure: explain a process; argue a position; entertain through conflict.

2. Put persuasive stages in a logical order: conclusion, evidence and reasoning, position claim/position, counterargument and response.

3. Explain the job of an orientation and how it differs from a report introduction.

B. APPLY AND EXPLAIN

4. Divide a procedure into stages: goal, materials, steps, test/check. Explain why sequence matters.

5. A report places unrelated facts under one heading. Propose headings and phases that improve navigation.

6. Compare a narrative resolution with a persuasive conclusion. What does each need to accomplish?

C. INDEPENDENT FLUENCY - CHECK AND CREATE

7. Plan an explanation titled How a Cyclone Forms using stages and at least two phases inside one stage.

8. Adapt the plan for a 90-second presentation. Mark one structural change and justify it.

Aussie Primary Academy | Australian Curriculum v9.0 | Independent Application and Self-Review

Name: _____

Date: _____

D. APPLY THE SKILL IN CONTEXT

9. Sort these moves into a balanced argument: define issue; present View A; evidence; present View B; evidence; evaluate; conclude.

10. Write a purpose statement for every stage, not merely a heading.

11. Identify one conventional structure you would deliberately adapt to engage Year 6 readers. Explain how the adaptation still preserves clarity.

E. REASON, EVALUATE AND TRANSFER

12. Transform the topic 'protecting local waterways' into an information report structure and a persuasive structure. Show what changes and what may stay.

13. Error analysis: A writer gives a conclusion before any evidence, repeats the claim in every paragraph and introduces a new reason in the final line. Diagnose and repair the structure.

F. STUDENT REVIEW - PROVE YOUR UNDERSTANDING

[] I can analyse and adapt text stages and phases to suit purpose.

Circle one: independently | with one reminder | with support

Evidence from my work that proves I understand: _____

The most difficult decision was _____ because _____

One correction or improvement I made: _____

My next practice step: _____

Aussie Primary Academy | Australian Curriculum v9.0 | Teacher Copy - Answers and Teaching Support

Accept equivalent responses when the student applies the targeted skill accurately and justifies the choice.

COMPLETE ANSWER KEY

1. explanation: phenomenon/sequence; argument: position/reasons/evidence/counterargument/conclusion; narrative: orientation/complication/development/resolution.

2. issue/position; evidence and reasoning; counterargument and response; conclusion.

3. Orientation establishes character, setting and situation; report introduction classifies/defines the topic and previews scope.

4. Goal -> materials -> ordered steps -> test/check. Users need resources before acting and steps in usable order.

5. Accept logical category headings and fact groupings matched to the topic.

6. Resolution settles or reframes conflict; persuasive conclusion synthesises reasons, reinforces position and may call for action.

7-8. Check logical scientific sequence and a justified spoken-text adaptation such as hook, signposting or fewer phases.

9. define -> View A/evidence -> View B/evidence -> evaluate -> conclude.

10-11. Purpose statements must explain each section's contribution; adaptation must be deliberate and clear.

12. Report organises facts by categories; persuasive text advances a position through reasons/evidence. Both may define the issue and use evidence.

13. Move evidence before conclusion, remove redundant claims, and introduce every reason in the body.

TEACHER CHECK AND NEXT STEP

[] Names stages and explains their functional purpose.

[] Recognises deliberate structural adaptation.

Next step: ask the student to justify why one structure suits one audience better than another.

COMMON MISCONCEPTION / WATCH OUT

A list of headings is not structural analysis; students must explain what each stage does.

Authors may adapt a conventional structure, but readers still need a logical pathway.

EXTENSION AND RE-TEACH

Re-teach: model one item aloud, complete one together, then ask the student to explain an independent correction.

Extension: transfer the skill to a short authentic text and justify two deliberate language choices with quoted evidence.
