LEARNING INTENTION

I am learning to draw, act out and solve addition and subtraction stories within 10.

WARM UP - ACT IT OUT!

There are 3 bears. One more joins. Act it out. How many bears now? _____

A - JOINING STORIES

Mia has 2 apples. She gets 3 more.

$$2 + 3 = \underline{\quad}$$

Four frogs sit by a pond. Two join.

$$4 + 2 = \underline{\quad}$$

Sam has 1 block. Dad gives him 6 more.

$$1 + 6 = \underline{\quad}$$

B - TAKE-AWAY STORIES

Six birds sit. Two fly away.

$$6 - 2 = \underline{\quad}$$

Nina has 9 crayons. She gives away 4.

$$9 - 4 = \underline{\quad}$$

Five cookies are on a plate. All 5 are eaten.

$$5 - 5 = \underline{\quad}$$

C - DRAW TO SOLVE

Ben sees 3 red fish and 4 blue fish.

How many fish altogether? _____

D - CHOOSE THE OPERATION

“more join” means: + / -

“fly away” means: + / -

“altogether” means: + / -

“are left” means: + / -

E - CHECK

Circle how you checked: drawing / counters / number line

STUDENT REFLECTION

[] I can find what happens.

[] I can choose + or -.

[] I can explain my answer.

PARENT / TEACHER TIPS

Ask: What do we know? What changes? What question must we answer?

FUN REAL-LIFE ACTIVITY

Tell simple stories using toys. Let the child act out the change before writing an equation.

Math Word Problems Within 10 - Answer Key

USA Kindergarten | Teacher Copy

Aussie Primary
Academy

Name: _____

Date: _____

US KINDERGARTEN | COMMON CORE ALIGNED | CCSS.MATH.CONTENT.K.OA.A.2

WARM UP

4

A - JOINING

5; 6; 7

B - TAKE AWAY

4; 5; 0

C - DRAW

7 fish

D - OPERATION

+; -; +; -

E - CHECK

Any valid checking strategy.

TEACHER CHECK

Accept drawings, objects or equations when they accurately represent the story.
