

Earth Resources

Year 2 Science | Aussie Primary Academy

Name: _____

Date: _____

ACARA v9.0: AC9S2U02 - Earth's resources are used in a variety of ways.

Learning Intention

I can identify Earth resources and explain how people use them carefully.

Mini Lesson

Earth gives us resources such as water, soil, air, plants and rocks. People use resources for drinking, growing food, building, cleaning and living. We should use resources carefully.

Vocabulary

water

soil

air

resource

A. Circle or Tick

Circle Earth resources:
water plastic toy soil air sunlight pencil
case

B. Match

Match the resource to a use:
water -> drinking
soil -> growing plants
air -> breathing

Earth Resources

Year 2 Science | Do, Think and Explain

Name: _____

Date: _____

ACARA v9.0: AC9S2U02 - Earth's resources are used in a variety of ways.

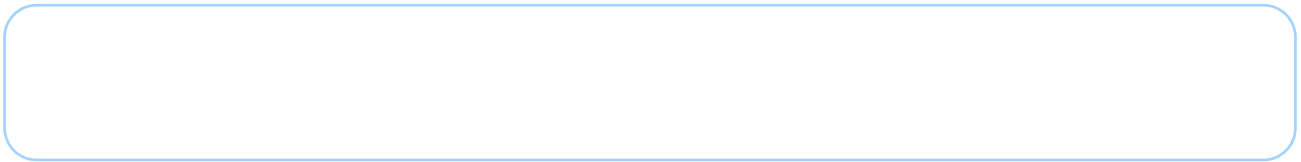

C. Sort and Think

Sort into Use Carefully or Wasteful.

turn off tap, leave tap running, plant a seed, throw rubbish in creek, use a bin, save paper

D. Draw and Label

Draw one Earth resource and label one way people use it.

E. Science Detective

Why should people save water? Write one clear sentence.

I Can Checklist

- ☐ I can name resources.
- ☐ I can match uses.
- ☐ I can explain careful use.

Earth Resources - Answer Key

Year 2 Science | Teacher Notes

Name: _____

Date: _____

ACARA v9.0: AC9S2U02 - Earth's resources are used in a variety of ways.

Answer Key

A: water, soil, air, sunlight.

B: water - drinking; soil - growing plants; air - breathing.

C: Use Carefully: turn off tap, plant a seed, use a bin, save paper. Wasteful: leave tap running, throw rubbish in creek.

D/E: Answers vary. Saving water helps people, plants and animals because water is needed for life.

Parent/Teacher Tip

Ask your child to spot one way your family uses water, soil or air during the day.

Extension Idea

Make a mini poster: One way I can care for Earth resources is...
